

Product Development Chemist

Crown Laboratories, Inc., a fully integrated specialty pharmaceutical company manufacturing and marketing a wide variety of Prescription, OTC and Cosmetic products for dermatology, oncology, podiatric and dental markets is seeking a Product Development Chemist with a thorough understanding of the pharmaceutical/consumer products industry.

Reporting directly to the VP of Manufacturing and Product Development, the individual will have a broad range of responsibilities within our product development group including but not limited to the formulation of new cosmetic and personal care products along with the development of OTC drug and ANDA formulations. Therapeutic categories of focus are photo- protection, anti-aging, skin lightening/brightening, acne, inflammatory skin conditions, dry skin, hair care and oral care.

Key Responsibilities:

- Completes product development projects under the supervision of the VP of Manufacturing and Product Development.
- Develops new or improved formulas, products and /or processes under moderate supervision.
- Applies standard formulation technologies toward creation of new products.
- Works with our suppliers to incorporate state of the art technology into our product formulations.
- Obtains new raw materials as necessary, along with the appropriate safety/technical documentation, specifications, samples, etc.
- Conducts all required performance and stability tests.
- Performs evaluations of competitive products; reporting findings as appropriate
- Develops pilot production and manufacturing procedures in conjunction with the Process Development Group.
- Helps perform, with the QC Group, experimental, developmental and analytical tests on raw materials and finished goods.
- Interfaces with other personnel: Manufacturing, QA and Marketing as required.
- Resolves routine customer and production problems
- Assists senior personnel as necessary.

Position Requirements:

- BS degree in Chemistry or Biology
- Minimum of 3 years of experience in product formulation in the pharmaceutical and or consumer products industry. Strong focus on semi-solids and liquids
- Knowledge of cGMP and FDA guidelines
- Excellent communication skills
- Ability to handle multiple projects
- Strong work ethic

Crown Laboratories, Inc. offers a competitive salary, bonus program, 401k and health benefit package. This position is based in **Johnson City, TN.**

If you meet the above requirements and are interested in joining the Crown Laboratories team please e-mail your resume to humanresources@crownlaboratories.com

Equal Employment Opportunity

Crown Laboratories, Inc. provides equal employment opportunities (EEO) to all employees and applicants for employment without regard to race, color, religion, gender, sexual orientation, gender identity or expression, national origin, age, disability, genetic information, marital status, amnesty, or status as a covered veteran in accordance with applicable federal, state and local laws. Crown Laboratories, Inc. complies with applicable state and local laws governing non-discrimination in employment in every location in which the company has facilities. This policy applies to all terms and conditions of employment, including, but not limited to, hiring, placement, promotion, termination, layoff, recall, transfer, leaves of absence, compensation and training.
